

**SHASHANK M S**  
(Bachelor of Computer Applications)  
Ph.no: +91-991-653-3538  
Email id: shashank.venku@gmail.com

---

**OBJECTIVES:**

- To work towards Organizational progress, being conscious of Social and Individual responsibilities.
- Optimum utilization of resources at disposal.

**TECHNICAL SKILLS AND INTERESTS:**

- Have good knowledge about HTML, CSS, JavaScript (jQuery) and PHP.
- Proficient in C and C++ programming.
- Knowledge about database concepts and MySQL.
- Have a good working exposure to Linux, shell scripts, and admin tools.
- Have good knowledge about developing projects with Visual Basic 6.0

**STRENGTHS:**

- Good logical, analytical and debugging skills.
- Can pick up new concepts and grasp relevant information from datasheets and manuals.
- Ability to accept people and situations, to respect people for what they are.

**ACADEMIC RECORD:**

Institution Attended	Exam Passed	Completed in	Marks Obtained
M S Ramaiah College Of Arts Science And Commerce, Bangalore (Bangalore University)	BCA	May 2012	63%
Sheshadripuram Composite Pre University College, Bangalore (PU Education board, Karnataka)	PUC	March 2009	56%
Sri Vidya Mandir High School, Bangalore (Kar. Secondary Education Examination Board)	SSLC	March 2007	67%

**WORK EXPERIENCE:**

**Direct-I Internet Solutions Pvt. Ltd.** (Web Solutions Specialist: May 2012 – Feb 2013)

- My responsibilities include managing the webspace on the Linux and Windows servers, managing DNS records of domains, and troubleshooting customers.
- Administered webspace by creating, modifying, moving and organizing the data appropriately for registered clients.

- Performed domain management by adding the appropriate DNS records to respective domains such that they would point to the correct server and work as expected.
- As a part of a program to elevate us to be full-fledged system administrators, we were trained in sandbox servers with jailed logins to administer everything via command line.
- Was a part of many modules under the work model called “Greater than N”, which required a “Greater than N” team to proactively address every client who raised ‘N’ or more tickets.

### **Freelance Experience:**

- Developed a website for schools, which helps the students of a particular schools to manage their assignments, leaves, syllabus, tests and much more on the website itself. I am developing this project with another friend of mine and developing it with:
  - CodeIgniter Framework (PHP).
  - jQuery.

### **College Projects:**

- Developed a Billing and Inventory Management Software for the fifth semester project using Visual Basic 6.0 as front end and MySQL as a backend.
- Developed a site which can be used for aptitude testing by the companies and institutes to test the students. Paradigms used:

Front End:

- HTML
- CSS
- JavaScript (jQuery Library)

Back End and Server Side Scripting:

- PHP
- MySQL

### **OTHER ACTIVITIES:**

- Represented the college to the NAAC committee during 2009 and played a crucial role in acquiring the prestigious accreditation.
- Won 1<sup>st</sup> prize in IT quiz in the 2010 College Tech Fest.

### **INTERESTS:**

I am a Web technologies enthusiast and am pursuing its programming as a hobby as well as professional interest. Other interests include reading novels, browsing the internet, listening to music, reading tech sites, exploring tips and tricks, and event management - I have successfully coordinated technical and non-technical events in my college.
